CEO Script – Introduction Video

Hi I am Jennifer Hodges, president and CEO of Have Fun Amusement Park. Congratulations on your first journey into distance learning. More on that in just a moment.

Thank you for choosing the Have Fun Amusement Park to be your employer. As you may be aware, safety is critical to our success, as well as having fun. These two go hand in hand. Therefore, we take safety very serious at our Amusement Parks.

Safety is very encompassing – it includes safety on our rides- we need to ensure they are operating properly and to do follow all rules to ensure they operate safely, safety for our customers – when our customers feel safe, they will relax and enjoy the ride and have fun in the process, and safety of our employees – you are an extremely important component for providing safety on our rides and for our customers; however, you need to make sure you are also safe. Therefore, on an annual basis and for each new employee, we will **all** complete a serious of mandatory, compliance workplace safety courses.

These workplace safety training courses will **all** be completed online. However, before initiating the compliance courses, all employees will be required to take the Distance Learning Orientation Course to help understand the reasons for using a non-standard or distance learning approach for the compliance training program. In addition, the orientation course will help each of you become familiar with taking online courses. The distance learning orientation course will guide you through what is expected of you in a distance learning environment, help you to get to know other co-workers virtually, how to locate the tools to use to access the compliance courses, provide a tour so you know how to locate the tools and courses, and the timeline to complete the compliance courses.

So let's get started by completing the Introduction section of the Orientation Program.
